

## Issues

| #    | Project              | Tracker | Status   | Priority | Subject                                                                                                        | Assignee               | Updated          |
|------|----------------------|---------|----------|----------|----------------------------------------------------------------------------------------------------------------|------------------------|------------------|
| 5227 | RhodeCode CE/EE      | Bug     | New      | Normal   | 400 during a svn checkout, file with special chars                                                             |                        | 23.02.2017 17:43 |
| 3549 | RhodeCode CE/EE      | Bug     | Resolved | Normal   | [4.0.0 regression], file source links use last commit id instead of current commit id                          | Marcin Kuzminski [CTO] | 21.04.2016 16:10 |
| 4274 | RhodeCode CE/EE      | Bug     | Resolved | Normal   | 500 error when push big objects                                                                                |                        | 13.02.2017 19:53 |
| 5502 | RhodeCode CE/EE      | Bug     | Resolved | High     | 500 error when using multiple custom branch permissions                                                        |                        | 07.12.2018 09:49 |
| 5639 | RhodeCode CE/EE      | Support | New      | High     | 500 Internal Server Error   The server has either erred ... after importing Database from backup               |                        | 22.11.2020 09:15 |
| 5550 | RhodeCode CE/EE      | Bug     | New      | Normal   | 500 Internal Server Error   The server has either erred or is incapable of performing the requested operation. |                        | 18.04.2019 17:12 |
| 5218 | RhodeCode CE/EE      | Bug     | New      | Normal   | 500 when forking repository, when using special chars in password.                                             |                        | 19.02.2017 21:46 |
| 5536 | RhodeCode CE/EE      | Feature | Resolved | Low      | Ability to disable server-side SSH key generation                                                              |                        | 28.02.2019 13:52 |
| 5289 | RhodeCode CE/EE      | Feature | New      | High     | Ability to Upload/Replace a file using the UI                                                                  |                        | 22.09.2017 10:29 |
| 1457 | RhodeCode CE/EE      | Feature | New      | Normal   | add allow permissions inheritance on repo groups                                                               |                        | 22.09.2017 10:27 |
| 5404 | RhodeCode CE/EE      | Task    | New      | Normal   | Add an option to detach review rules when deleting an user                                                     |                        | 22.11.2017 11:23 |
| 3978 | RhodeCode CE/EE      | Feature | New      | Normal   | Add bug tracker                                                                                                |                        | 05.06.2016 21:20 |
| 3980 | RhodeCode CE/EE      | Feature | New      | Normal   | Add CI engine                                                                                                  |                        | 05.06.2016 21:32 |
| 3981 | RhodeCode CE/EE      | Feature | Resolved | Normal   | Add cloud hosting like Gitlab, GitHub                                                                          |                        | 02.03.2020 09:14 |
| 5638 | RhodeCode CE/EE      | Feature | New      | Normal   | Add "Copy full url path" button                                                                                |                        | 05.02.2021 20:23 |
| 4191 | RhodeCode CE/EE      | Feature | New      | Normal   | Add custom Image logo option to header                                                                         |                        | 22.08.2016 14:49 |
| 4182 | RhodeCode CE/EE      | Feature | New      | Normal   | add direct link from notification to corresponding PR                                                          |                        | 19.08.2016 12:35 |
| 5641 | RhodeCode CE/EE      | Feature | New      | Normal   | "Add draft" / (x) button usability                                                                             |                        | 30.11.2020 20:53 |
| 5611 | RhodeCode CE/EE      | Feature | Resolved | Normal   | Add information "is the pull request up to date?" in the PR page                                               |                        | 03.10.2021 23:24 |
| 4250 | RhodeCode CE/EE      | Bug     | Resolved | Normal   | Adding a reviewer into existing PR doesn't set a reason.                                                       | Marcin Kuzminski [CTO] | 07.10.2016 20:05 |
| 4282 | RhodeCode CE/EE      | Task    | Resolved | Normal   | Add inode limit together with disk usage                                                                       | Marcin Kuzminski [CTO] | 19.10.2016 12:18 |
| 3979 | RhodeCode CE/EE      | Feature | New      | Normal   | Add kanban board                                                                                               |                        | 05.06.2016 21:20 |
| 4063 | RhodeCode Appenlight | Feature | New      | Normal   | add option to specify custom value in dashboard select                                                         |                        | 30.06.2016 15:17 |
| 5537 | RhodeCode CE/EE      | Task    | Resolved | Normal   | Add owner to create_pull_request API                                                                           |                        | 28.02.2019 13:52 |
| 5405 | RhodeCode CE/EE      | Bug     | New      | Normal   | Add repository from UI leads to HTTP/404                                                                       |                        | 28.11.2017 11:39 |
| 3999 | RhodeCode CE/EE      | Feature | Resolved | Normal   | Add `send account information` to user creation page                                                           |                        | 28.06.2016 15:22 |

| #    | Project              | Tracker | Status   | Priority | Subject                                                                                                                                                                        | Assignee     | Updated          |
|------|----------------------|---------|----------|----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|------------------|
| 5229 | RhodeCode CE/EE      | Task    | Resolved | Normal   | add support for <a href="https://clipboardjs.com/">https://clipboardjs.com/</a>                                                                                                |              | 21.01.2020 02:19 |
| 5225 | RhodeCode CE/EE      | Task    | Resolved | Normal   | add tag of author/contributor to comments                                                                                                                                      |              | 11.05.2017 11:10 |
| 5582 | RhodeCode Control    | Feature | New      | Normal   | Add the version number of a PR in the HTTP API                                                                                                                                 |              | 15.01.2020 10:45 |
| 3987 | RhodeCode Appenlight | Bug     | New      | Normal   | adjust footer so it's consistent with the website footer                                                                                                                       |              | 15.06.2016 10:20 |
| 4278 | RhodeCode CE/EE      | Bug     | Resolved | Normal   | [admin] Clicking the save button in admin -> settings -> issue tracker leads to exception if no patterns entered.                                                              | Daniel D     | 18.10.2016 13:38 |
| 5410 | RhodeCode CE/EE      | Bug     | New      | Normal   | After converting to CE, we get the following error when trying to view some repos in the UI: "UnicodeDecodeError: 'ascii' codec can't decode byte" (full error in Description) |              | 25.01.2018 20:45 |
| 5556 | RhodeCode CE/EE      | Bug     | New      | Normal   | After upgrade RhodeCode Enterprise, pull request via API adds repo owner as default reviewer                                                                                   |              | 01.01.2020 13:09 |
| 4269 | RhodeCode CE/EE      | Support | Resolved | Normal   | Allow flash messages to be permanently suppressed                                                                                                                              | Marcin Lulek | 14.10.2016 12:46 |
| 4071 | RhodeCode Appenlight | Feature | New      | Normal   | Allow for easy out-out of assigned permissions                                                                                                                                 |              | 05.07.2016 10:14 |
| 5617 | RhodeCode CE/EE      | Feature | New      | Normal   | Allow PRs to non-head bookmarks                                                                                                                                                |              | 20.05.2020 12:25 |
| 3364 | RhodeCode CE/EE      | Support | New      | High     | Allow Specifying the Commit Message for Pull Request Merges                                                                                                                    |              | 17.04.2018 21:51 |
| 3373 | RhodeCode CE/EE      | Feature | New      | Normal   | Allow to create Bookmarks and Branches from UI                                                                                                                                 |              | 05.04.2016 09:21 |
| 4290 | RhodeCode CE/EE      | Task    | New      | Normal   | Allow to transplant the review status to merged commits                                                                                                                        |              | 17.04.2018 21:50 |
| 5423 | Documentation        | Support | Resolved | Normal   | API-Documentation for Method "create_repo_group" faulty                                                                                                                        |              | 22.01.2018 16:23 |
| 3260 | RhodeCode CE/EE      | Task    | New      | Normal   | api: expose get_repo_node method                                                                                                                                               |              | 17.03.2016 12:56 |
| 5527 | RhodeCode CE/EE      | Support | New      | Normal   | API: expose human readable failure reason                                                                                                                                      |              | 30.01.2019 17:43 |
| 4677 | RhodeCode CE/EE      | Support | Resolved | High     | API get_repo_refs not working ?                                                                                                                                                |              | 19.12.2016 11:46 |
| 5201 | RhodeCode CE/EE      | Task    | Resolved | Normal   | API: implement describe-methods                                                                                                                                                |              | 13.02.2017 15:57 |
| 4301 | RhodeCode CE/EE      | Feature | New      | Normal   | [API] toggle force_password_reset in api for ldap users                                                                                                                        |              | 28.10.2016 15:43 |
| 3093 | Documentation        | Task    | New      | Normal   | [API] - update hg/git update pr API. Auto updates PR on push                                                                                                                   | Brian Butler | 01.07.2016 14:15 |
