Description			
The special middleware that catches custom exceptions should be verified working with http backend, and others.			
If i turn off vcserver, and open page that requires VCSSERVER i should see a special page reporting VCSSERVER is down, and not a regular 500 error.			
I think we had this logic somehow, but it either got broken, or lost.			

History

#1 - 02.08.2016 23:03 - Marcin Kuzminski [CTO]

- Subject changed from *Verify that special middleware is catching exceptions correctly* to *Check middleware chain status, and Verify that special middleware is catching exceptions correctly*

#2 - 11.08.2016 13:11 - Marcin Kuzminski [CTO]

- Target version changed from v4.3 to v4.4

#3 - 12.08.2016 12:22 - Marcin Kuzminski [CTO]

- Description updated

#4 - 17.08.2016 06:40 - Redmine Integration
