Description

3 x typos
2 x MySQL -> PostgreSQL

<https://docs.rhodecode.com/RhodeCode-Enterprise/install/using-postgresql.html>

To use a PostgreSQL database you should install and **configurevthe** database before installing RhodeCode Enterprise. This is **becausevduring** RhodeCode Enterprise installation you will setup a connection to your PostgreSQL database. To work with PostgreSQL, use the following steps:
Depending on your operating system, install **avPostgreSQL** database following the appropriate instructions from the PostgreSQL website.
Configure the database with a username and password which you will use with RhodeCode Enterprise.
Install RhodeCode Enterprise, and during installation select PostgreSQL as your database.
Enter the following information to during the database setup:
Your network IP Address
The port number for **MySQL** access. The default **MySQL** port is
