Description

Currently we can set one or more reviewers for PR, but to complete review all reviewers must approve it. This workflow is natural but sometimes we just want someone check modification as observer but not need to mandatory to complete the review.

History

#1 - 18.08.2016 18:00 - Marcin Kuzminski [CTO]

- Target version set to v4.5

I like the idea. Few things that we need to put attention to:

- voting needs to be calculated only on voting reviewer type
- adding a reviewer with with different types should trigger different notifications
- it should be possible to change the role of reviewer on already created PR

#2 - 07.10.2016 10:23 - Marcin Kuzminski [CTO]

- Assignee set to Daniel D

#3 - 07.10.2016 10:26 - Marcin Kuzminski [CTO]

I think would come along with enforced reviewers logic. We'd add a special markers into reviewers (store roles inside the reviewers table)

Roles could be:

- reviewer
- observer
- tester
- linter

IN addition there should be an enforced bool type so added reviewer is not removable.

Based on those we could make strict/loose rules how things are reviewed and also how voting goes. Several times we had situation when the logic that picks reviewers based on code annotation picks a lot of guys.

Let's imagine someone is on vacation. Unless he's enforced reviewer. I'd be great to NOT remove that person in order for a merge, but change his type into observer.

It would be very usefull addition.

#4 - 07.11.2016 16:24 - Marcin Kuzminski [CTO]

- Target version changed from v4.5 to v4.6

#5 - 30.01.2017 20:17 - Marcin Kuzminski [CTO]

- Target version changed from v4.6 to v4.7

#6 - 24.02.2017 10:11 - Marcin Kuzminski [CTO]

- Subject changed from Observer role for PR reviewer to Different roles for PR reviewers

#7 - 28.03.2017 21:04 - Marcin Kuzminski [CTO]

- Target version changed from v4.7 to v4.8

#8 - 21.06.2017 12:51 - Marcin Kuzminski [CTO]

- Target version changed from v4.8 to v4.10

#9 - 22.09.2017 10:27 - Marcin Kuzminski [CTO]

- Target version changed from v4.10 to v4.11

#10 - 01.07.2020 16:43 - Simon Sarginson`

any update on this? Would really love these feature, it's a real pain not being able to add someone who just needs to be aware but doesn't need to approve.

#11 - 01.07.2020 17:09 - Simon Sarginson`

any update on this? Would really love these feature, it's really useful to be able to add someone who doesn't need to approve it.

#12 - 01.07.2020 20:15 - Marcin Kuzminski [CTO]

- Target version changed from v4.11 to v4.20

We're working on this code now for reviewers, and notifications management, would be good to make those roles too

#13 - 12.10.2020 23:13 - Redmine Integration

- Status changed from New to Resolved

Commit bfede169912d by Marcin Kuzminski marcin@rhodecode.com on stable branch changed this issue.
