Hello support,			
We have an issue with the RhodeCode API "get_repo_refs". While calling , it returns the following error: "failed to get repo: ... references"			
However, we are able to call other API for the same repo; "get_repo", "get_repo_nodes",...			
We found this in the logs: 2016-12-15 12:51:37.913 ERROR [rhodecode.api.views.repo_api] Exception occurred while trying to get repo refs Traceback (most recent call last): File "/opt/rhodecode/store/9d6f7bxchl0qfsi4v9z927y1kqsq8liz-python2.7-rhodecode-enterprise-ce-4.5.0/lib/python2.7/site-packages/rhodecode/api/views/repo_api.py", line 529, in get_repo_refs refs = vcs_instance.refs() File "/opt/rhodecode/store/9d6f7bxchl0qfsi4v9z927y1kqsq8liz-python2.7-rhodecode-enterprise-ce-4.5.0/lib/python2.7/site-packages/rhodecode/lib/vcs/backends/base.py", line 229, in refs raise NotImplementedError NotImplementedError			
Is this API still WIP ? We planned to use it for our current development.			

### History

#### #1 - 15.12.2016 14:03 - Marcin Kuzminski [staff]

- Description updated

#### #2 - 15.12.2016 14:04 - Marcin Kuzminski [staff]

- Private changed from Yes to No

- Target version set to v4.6

- Priority changed from Normal to High

It looks like this API was exposed by accident. It's planned to be used in 4.6

#### #3 - 16.12.2016 16:16 - Redmine Integration

- Status changed from In Progress to Resolved

Commit 7c9d8d89c125 by Marcin Kuzminski [marcin@rhodecode.com](mailto:marcin@rhodecode.com) on default branch changed this issue.
