| Sorting: | Affected Version: |
| Commit Number: | |
| Description | |
| <pre>\$ ~/.rccontrol-profile/bin/rccontrol uninstall community-1 \$ ~/.rccontrol-profile/bin/rccontrol uninstall vcserver-1</pre> | |
| These are missing: | |
| <pre>\$ rm -rf ~/.rccontrol.ini \$ rm -rf ~/.rccontrol-profile \$ sudo rm -rf /opt/rhocode</pre> | |
| And maybe rccontrol uninstall could have an --all param | |

#1 - 06.07.2017 10:25 - Marcin Kuzminski [CTO]

Uninstalling instances is something different then uninstalling rccontrol.

To do what you want i.e remove all instances and all files from the installer a command rccontrol self-destroy should be used.
