<b>Commit Number:</b>			
<b>Description</b>			
Journal Atom feed from url like this <a href="https://my.host/_admin/journal/atom?auth_token=d74d">https://my.host/_admin/journal/atom?auth_token=d74d</a> ids <b>not unique</b> as it required			

### History

#### #1 - 01.09.2017 11:39 - Marcin Kuzminski [CTO]

Hi,

Can you explain a bit more ? The token used is special one just for RSS feed. What kind of uniqueness are you looking for here ?

#### #2 - 01.09.2017 14:50 - Vasily S

Can you explain a bit more ? The token used is special one just for RSS feed. What kind of uniqueness are you looking for here ?

Url and token is ok, it is just example

Atom specification assume the entity id is unique and not changed since time. But now ids look like this:

```
<id>tag:https://,2017-08-31://rc.cavedb.ru/cavedb/VostochnoSajanskaja-Manskij-Badzhejskij/changelog</id>
```

Id is not unique for a entities within a day and my news reader (Mozilla Thunderbird) swallows some feeds and work wrong...

#### #3 - 01.09.2017 14:58 - Marcin Kuzminski [CTO]

OK, thanks for explanation. We'll fix this. Do you a proposal what would be a good id for this entry ?

**#4 - 01.09.2017 15:08 - Vasiliy S**

Do you a proposal what would be a good id for this entry ?

Maybe md5-hashed Journal row id form DB? Dont know
