

RhodeCode CE/EE - Feature #5396

Merge state with shadow repo should be created during pull request

12.10.2017 15:34 - Marcin Kuzminski [CTO]

Status:	Resolved	Start date:	12.10.2017

Description			
Currently we do a merge simulation which creates shadow repo on showing the shadow repo "AFTER" creation. This approach is wrong, it could lead to following problems:			
<ul style="list-style-type: none">• if we do automated creation, no shadow repo would be created e.g via API call, or POST without redirect• the eventing system sends the pr created, exposing shadow repo, but it might be actually not created.			
Solution would be to use the merge state during creation that solves all of above			

History

#1 - 12.10.2017 21:20 - Redmine Integration

pullrequest created by marcink (status: under_review). <https://internal-code.rhodecode.com/rhodecode-enterprise-ce/pull-request/2923>

#2 - 12.10.2017 21:57 - Redmine Integration

- Status changed from New to Resolved

Commit 41032fb666fb by Marcin Kuzminski marcin@rhodecode.com on default branch changed this issue.
