

## RhodeCode CE/EE - Bug #5412

### Webhook for "pullrequest commented" event returns incomplete data

04.01.2018 10:54 - Rishipuri Bharatpuri

#### Description

If there is a new pull request comment along with a status change, webhook returns the status as null instead of the actual status with the comment.

Here is the part of data returned:

```
comment: {
  permalink_url: "https://rhodecode/_admin/pull-request/999#comment-6666",
  line: null,
  type: "note",
  status: null,
  text: "test test",
  file: null,
  url: "https://rhodecode/_admin/pull-request/999#comment-6666"
},
```

#### History

##### #1 - 04.01.2018 10:58 - Rishipuri Bharatpuri

Is this an expected behaviour?

##### #2 - 04.01.2018 11:26 - Marcin Kuzminski [CTO]

Not expected, what version are you using?

##### #3 - 04.01.2018 11:30 - Rishipuri Bharatpuri

Currently on 4.10.6

##### #4 - 04.01.2018 11:31 - Marcin Kuzminski [CTO]

ok, we'll check that then.

##### #5 - 06.01.2018 12:09 - Marcin Kuzminski [CTO]

Hi,

We can confirm that. It's an issue related to database transaction isolation. We'll add a small fix to make sure the data is read properly in this case. The change is trivial, and we can send you a patch to fix this.

##### #6 - 06.01.2018 12:37 - Redmine Integration

- Status changed from New to Resolved

Commit 4400cfc1c11 by Marcin Kuzminski [marcin@rhodecode.com](mailto:marcin@rhodecode.com) on default branch changed this issue.

**#7 - 27.02.2018 17:23 - Rishipuri Bharatpuri**

Hi,

Was this fix released? If yes, which version of rhocode has it?

**#8 - 27.02.2018 17:34 - Marcin Kuzminski [CTO]**

Yes, 4.11 series has this fix.

**#9 - 27.02.2018 18:00 - Rishipuri Bharatpuri**

Thank you.
