Description

RC Web UI fonts are not looking that good. The current font family is ""proximanovaregular","Proxima Nova Regular","Proxima Nova",sans-serif". The font size is too small as well (by default). Too much space is wasted on the UI.

GitHub/GitLab/Kallithea fonts look much better and the UI space appears to be well utilized in Kallithea.

From what I saw, RC font color is too light as well. This reduces the contrast.

RC uses color: #323232

GitHub uses color: #24292e

Attached below the updated stylesheet. The UI looks like this:

- *File style.css added*

This is the correct style.css.
