

RhodeCode CE/EE - Bug #5509

Remove `!important` attributes` from UI elements

29.10.2018 20:24 - Arun Chandrasekaran

Description

At present !important attribute is being used in

```
div.readme_box ol, div.readme_box ul, div.readme_box p, div.readme_box blockquote, div.readme_box dl, div.readme_box li,
div.readme_box table
div.readme_box pre
```

and in few other elements. It would be good to have these removed so that these can be overridden by custom headers by the user.
