#### Description

I have a PR with an inline code comment. I updated the PR with a new commit that reverts the code that the comment was attached to. Now, the PR page correctly keeps the inline comment in a dedicated block at the end of the diffs. My problem is that the message that appears in this block is misleading.

```
src/ApplicationFramework/Application/SConscript removed in this version
```

File was deleted in this version. There are still outdated/unresolved comments attached to it.

It says that the file was deleted, but it's not the case: there is just no change in this file anymore, in the complete diff.

#### History

##### #1 - 15.04.2020 21:50 - Daniel D

Hi Oliver,

This is somehow expected. Our system tracks changes of pull-requests, and there were actions attached to the mentioned file, that was now deleted in the next iteration of a pull-request. This is why we display this information. If you would go back to the previous version we'd still show that file.

Would it help if we work on the message and explain it more why we mark it as deleted in this version ?

##### #2 - 15.04.2020 23:16 - Olivier Renaud

I can see how technically a version of a PR "deleted" a file compared to a previous version. But the word "delete" really suggests that my PR includes the deletion of the file (as in hg remove or git rm).

I can suggest:

removed in this version -> no changes in this version

File was deleted in this version -> File does not contain changes anymore in this version

##### #3 - 15.04.2020 23:30 - Daniel D

- Target version set to v4.19

- Assignee set to Daniel D

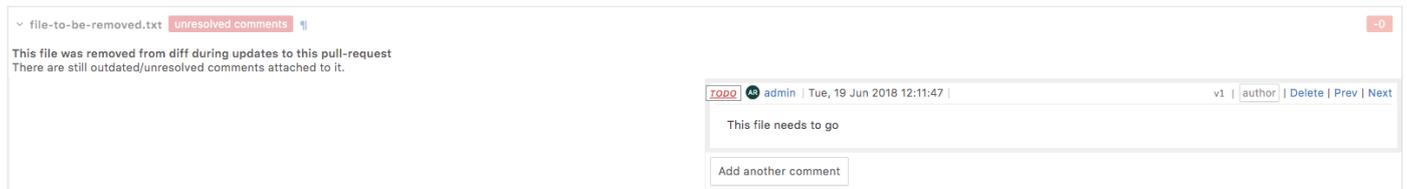

Thanks for the suggestion, you're right "deleted" really is too strong, and indicates permanent action.

We'll discuss this internally, and adjust the names for that case operation.

This is our current proposal, let us know what do you think?

**#5 - 23.04.2020 13:36 - Olivier Renaud**

I'm fine with this new message, yes. It's certainly less confusing than the current one. Thanks.

**#6 - 23.04.2020 17:40 - Redmine Integration**

- Status changed from New to Resolved

Commit d193c5b3a65b by Daniel Dourvaris [daniel@rhodecode.com](mailto:daniel@rhodecode.com) on default branch changed this issue. <https://code.rhodecode.com/rhodecode-enterprise-ce/changeset/d193c5b3a65b8cf8840ff543606a70d759a0c937>
