

RhodeCode CE/EE - Bug #5655

New public gist's id is always auto generated

24.02.2021 12:14 - Sebastian Elsner

Status:	Resolved	Start date:	24.02.2021

Description

I think this might be a bug, but could also be intended behaviour.

click "new gist"
enter anything for Gist id
select public gist
click create gist

this will always give me a gist with a auto generated number.

Doing the same sequence, but selecting private gist, will give a gist with the correct name.
