Target version:	Backlog	Spent time:	0.00 hour
Sorting:		Commit Number:	

Description

The way that the times/dates are displayed in the tables is very inconsistent. As per Martina's recommendations here <https://projects.invisionapp.com/d/#/console/2512700/59123281/comments/29108127> we should make them all display the same. This will be very helpful in controlling the sizing in the tables and of course, easier for users. The table.rctable td.td-time CSS rule should be adjusted so that it allows for the amount of space needed once the html change is completed.

History

#1 - 29.01.2015 07:32 - Johannes Bornhold

- Target version set to 28

#2 - 30.01.2015 10:21 - Lisa Quatmann

- Subject changed from Standardise times in tables to [templates] Standardise times in tables

#3 - 30.01.2015 15:54 - Johannes Bornhold

Note that a bit of work has been contributed in this PR already: <https://code.rhodecode.com/rhodecode-momentum/pull-request/654>

#4 - 06.05.2015 22:09 - Johannes Bornhold

- Target version changed from 28 to Backlog

Cleaning up "Refinement" and throwing everything out into the backlog.

#5 - 16.03.2016 15:52 - Marcin Kuzminski [staff]

- Private changed from No to Yes

#6 - 14.04.2016 11:40 - Marcin Kuzminski [staff]

- Status changed from New to Closed

this was covered by recent timeago changes.

#7 - 14.04.2016 13:17 - Marcin Kuzminski [staff]

- Private changed from Yes to No
